16th Annual Cal/EPA

ENVIRONMENTAL CROSS-MEDIA ENFORCEMENT SYMPOSIUM

May 26th – 29th, 2009
Napa, California

About the Symposium

The Symposium objective is to provide a forum where participants can build partnerships and gain knowledge of advanced enforcement techniques. The Symposium focus is on an interdisciplinary approach to enforcement issues involving the program/media (air, water, waste, toxics and pesticides), as well as cross program impacts. This approach recognizes that many environmental issues cannot be fully addressed without the involvement of more than one environmental regulatory entity. Participants will learn proven techniques from top enforcement professionals in how to improve enforcement practices; identify different violations encountered in each media; determine what agencies require notification after violations are identified; whether violations may be administrative, civil or criminal offenses; and appropriate enforcement actions to be taken.

Who Should Attend

- Cal/EPA Boards & Departments enforcement/compliance personnel
- Local Air Districts
- Local enforcement authorities
- Certified Unified Program Agencies
- Regional Water Quality Control Boards
- County Agricultural Commissioners
- Environmental crimes task force members
- Law enforcement personnel
- Emergency response teams
- Hazardous materials personnel
- City, District, State, U.S., and private attorneys
- Industry personnel
- Tribal EPA personnel
- Neighboring states/Environmental personnel
